### Company Profile

---

Since its foundation in 1961, Rittal has continuously evolved into the world's leading systems provider for enclosures, power distribution, climate control, IT infrastructure and software & services.

Today, "Rittal – The System." offers you a perfectly coordinated system platform. It unites innovative productions, pioneering engineering solutions and global service to accommodate the most diverse requirements. It caters to a whole host of industries, from machinery and plant engineering, to the automotive industry, through to information technology.

All from a single source, all in top quality.

That is what "Rittal – The System. Faster – better – worldwide." is all about.

A workforce of 10,000 manufactures and develops "Rittal – The System." on your behalf. Ensuring you stay on track for success. Tap into synergy potential with our sister company Eplan, the leading manufacturer of software for cross-disciplinary engineering solutions.

We never lose sight of our responsibility to the environment and society.

We have followed the same principles since the company's foundation in 1961: Power and Vision!

Power is the curiosity to explore something new. Power is focused determination and imagination; power is implementing findings quickly and in a customer-centric manner.

This power can only succeed with a visionary, courageous entrepreneurial spirit, a dynamic management team, and 10,000 motivated employees from more than 100 different nations.
