Company Profile

GÜNTHER Hot Runner Technology are able to look back on a successful company history. It all started in a garage, where GÜNTHER Hot Runner Technology developed from a hot runner manufacturer into an internationally active and technologically leading company. Starting with two employees in 1983 and with currently more than 200 employees at the Frankenberg, Germany location, a subsidiary in Shanghai, China and sales branches throughout Europe today, we're not about to stop growing.

GÜNTHER company group grows: GÜNTHER broadens its expertise in electronic system technology on integrating ESYS GmbH, a specialist in customer-specific electronics and software development. The Berlin company designs and manufactures miniaturized electronic and IoT solutions, modern apps, and cloud and web applications. The acquisition meets requirements with regard to Industry 4.0 and digital transformation.
